WALLETS

LAPTOP BAGS

All products are customizable

# OUR PROCESS

## Cutting

All of our fabrics come from a combination of deadstock, cut-waste, and textiles that, although high quality, were not considered suitable for industrial production.

## Screen Printing

Each hand-painted design is created using water-based textile inks, individually crafted by our talented screen printer who has hearing and speech disabilities.

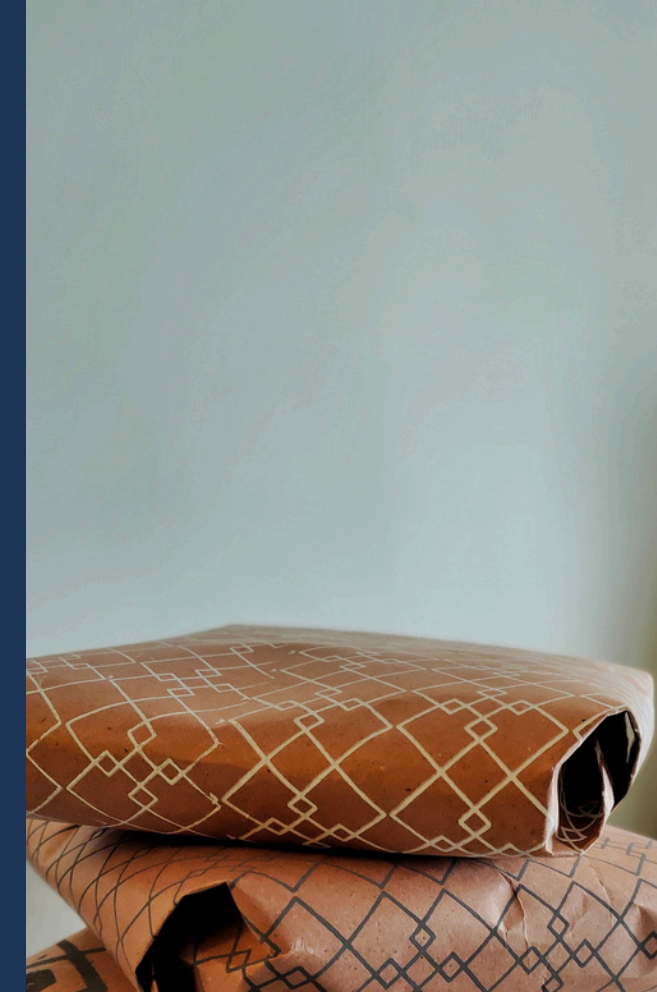

## Handstitching

Our products are hand-stitched by experienced tailors, including single mothers and individuals with disabilities. All of our tailors are paid fair wages and work in ethical conditions.

## Packaging

All of our products are packed in hand-printed packaging papers. Our packaging is 100% recyclable and reusable, helping to minimize environmental impact.
